---

Hey Gents,

Attached are NOAA comments on the Table 1 screening level values for water at Portland Harbor. The bulk of these comments were provided to me last week by Mike Buchman (b) (6). After pulling them into my letter, I had a couple of questions for him, but (b) (6). So I'm passing these on to you for now with a couple of as-yet-to-be clarified points (orange text). In any case, I hope the bulk of these comments are helpful. I'll recirculate this letter more broadly after checking in with Mike. Just wanted to make sure you had it this week.
